

**ADEQ:** Do you recycle at home or at school, if so what do you recycle?

**Cody:** Yes, we recycle at home and at school. We recycle aluminum cans at our school and newspapers at our school. We recycle cans for money for our Accelerated Reader Program.

**ADEQ:** Why do you think it is important to recycle?

**Cody:** To save our world from garbage and by reusing our resources.

**ADEQ:** What can you and your family do to reduce waste by reuse?

**Cody:** Recycle any items that are recyclable. We could use sponges to clean with instead of paper towels. Instead of throwing away a plastic gun, you could fix it. You could pass down clothes that are in good condition.

**ADEQ:** What would you tell others to encourage them to reduce, reuse and recycle?

**Cody:** At our school we are giving the winner of the most pounds of cans a pizza party. Dominos has been donating the pizzas because they like our program too.
